

Upshur Rural Electric Cooperative Members Helping Members

There comes a time when we all could use a helping hand. There are members of URECC that need assistance. Whether these families and individuals are elderly, unemployed, sick, single parents, or just those needing a hand to get by for awhile, they could use your help. State and private agencies that provide utility assistance are low on funds to help these neighbors. If you would like to help those in need, please sign below and return this form to Upshur Rural Electric Cooperative. Funds donated by you will be forwarded to the agencies that help Upshur Rural Electric Cooperative members in the county in which you live. Thank you for your consideration and assistance.

Please direct future capital credit retirements from my account(s) to utility assistance in my county.
